# VOLIM MATEMATIKU

DECEMBAR 2024. - MAJ 2025.

RADIONICA ZA NASTAVNIKE/CE I PROFESORE/ICE MATEMATIKE

# DOBRE PRAKSE U NASTAVI MATEMATIKE

Sarajevo  
Januar 2025.

# Plickers i tehnike za formativno praćenje

Nada Sokolović  
eTwinning ambasador  
OŠ "Osman Nakaš"  
Sarajevo

The screenshot shows the Plickers website homepage. It features a dark blue background with a globe icon on the right. In the center, there's a smartphone displaying a card with the question "What's the heaviest planet in our Solar System?" with options: Venus, Jupiter, Neptune, and Mars. Below the phone are three testimonial cards from users: Danielle Neppi, Kristen Kiss, and Cortnee Hill, each sharing their positive experience with Plickers.

# Plickers i tehnike za formativno praćenje

Nada Sokolović

- Nastavnica u OŠ "Osman Nakaš" u Sarajevu
- Dobitnica niza priznanja (izdvojila bih priznanje "Nastavnik godine u šk.god. 2018/2019" u kategoriji predmetne nastave u KS)
- Učesnica sam brojnih radionica, seminara, webinara, stručnih konferencija (TIMSS 2023 1st/2nd National Research Coordinators' Meeting, eTwinning PDW „Digital Competences & IT Didactics“ u Beču, Austrija 2019.g. eTwinning PDW za ambasadore "Teams builds dreams" , Sarajevo 2022.)
- eTwinning ambasador u BiH
- U "Digitalnom katalogu primjera dobrih praksi" objavljena je praksa "Geometrijska tijela" (2021.g.)

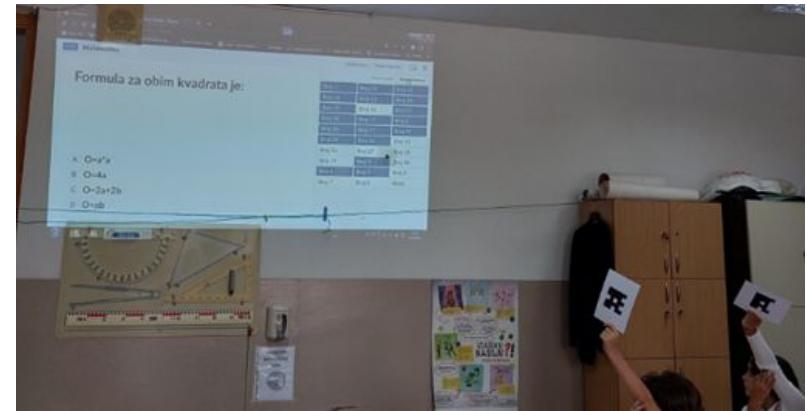

## Ciljevi radionice:

- Upoznati učesnike s osnovama alata „Plickers“ i njegovom primjenom u nastavi.
- Prikazati kako alat koristiti za formativno praćenje znanja učenika.
- Omogućiti učesnicima praktično iskustvo u kreiranju seta pitanja i prikupljanje odgovora pomoću alata „Plickers“.

## Sadržaj prezentacije:

- Upotreba alata “Plickers”
- Signali rukom
- ”Zeleni i crveni CD”
- Metoda tačno-netačno
- Primjer upotrebe Venovog dijagrama
- Uspoređivanje pojmova
- Primjena Frayer-ovog modela
- Dvije zvjezdice i želja

The screenshot shows a project page from the European School Education Platform. The project is titled "ForMat : formativno vrednovanje u poučavanju matematike". It is described as a project in progress, created on 22.08.2022, and available in Bosnian, Croatian, and Serbian. The page includes a summary of the project's purpose and a link to its members and image gallery.

## Plickers

Plickers je alat namijenjen jednostavnoj i inovativnoj provjeri znanja učenika,

anketama ili kratkim istraživanjima sa automatskim prikupljanjem i analizom dobijenih rezultata.

<https://www.plickers.com/>

## Plickers

„Plickers” je alat koji omogućava nastavnicima da na jednostavan način dobiju povratne informacije od učenika u realnom vremenu i tako **evidentiraju stepen usvojenosti** gradiva kod učenika.

## Plickers

Plickers je besplatan, pristupačan i zanimljiv obrazovni alat, koji koriste nastavnici širom svijeta za praćenje ili ocjenjivanje svojih učenika i prikupljanje trenutnih rezultata u učionici.

## Plickers

Učenici odgovaraju na pitanja podižući jedinstvene kartice, tako da nema potrebe za učeničkim uređajima ili računima.

## Plickers

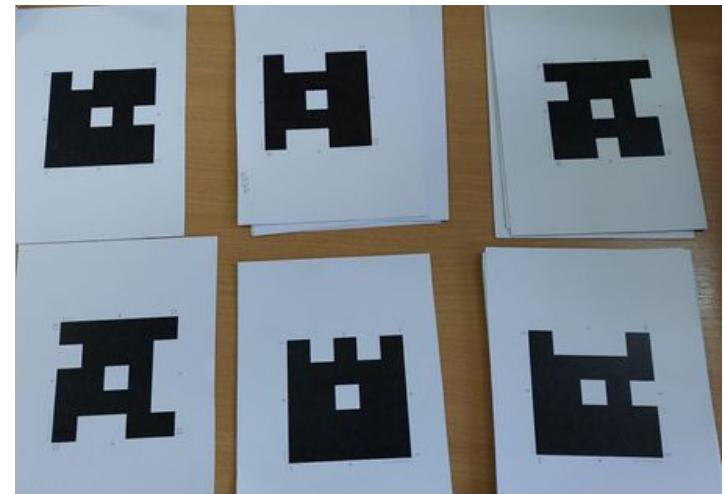

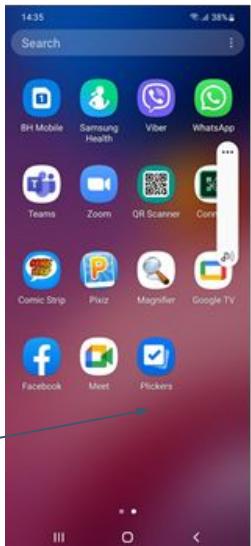

Kao nastavnici, imat ćete pristup besplatnom Plickers računu.

Oni su dizajnirani za individualnu upotrebu, što će vam omogućiti da stvorite online okruženje, koje je prilagođeno vašem vlastitom jedinstvenom rasporedu nastave.

## Implementacija alata “Plickers”

Za implementaciju alata  
“Plickers” u nastavi potrebno  
je:

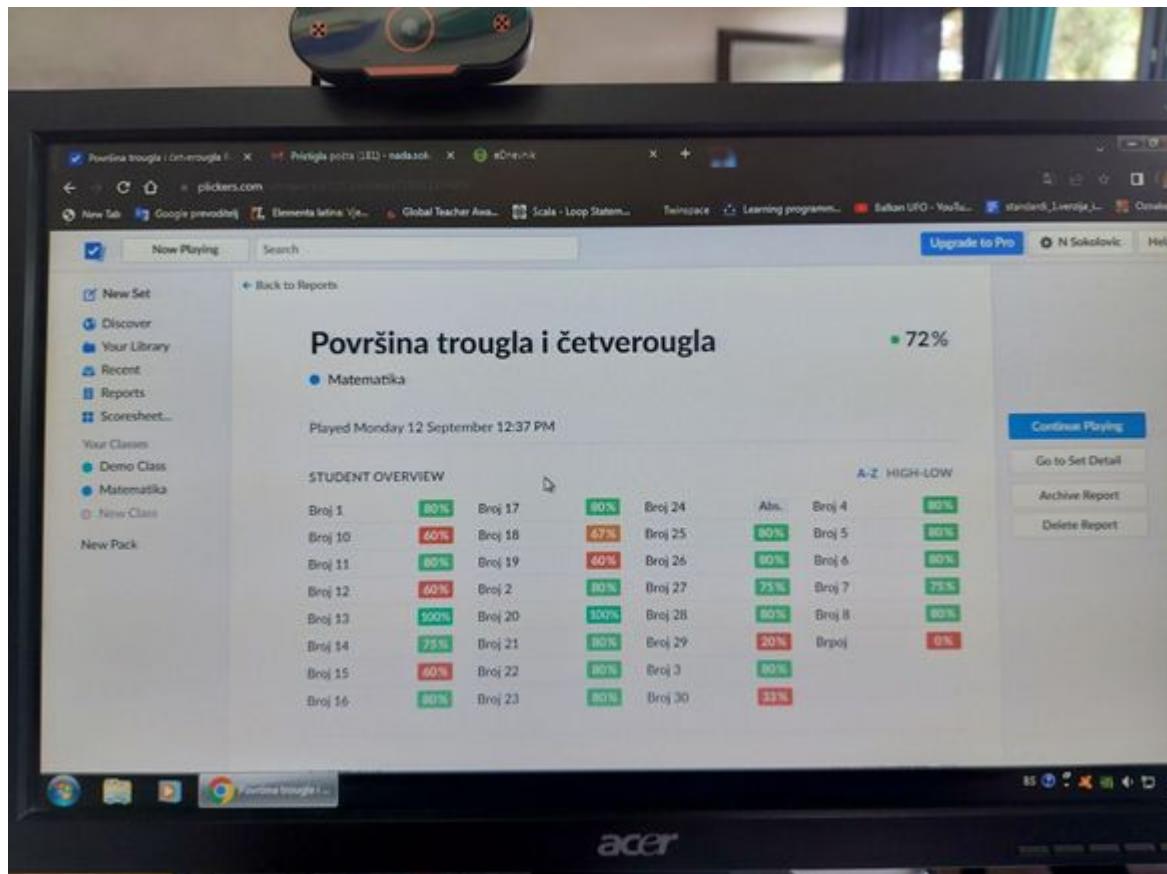

- za svakog učenika u odjeljenju po jedna kartica sa kodom
- mobitel ili tablet (za nastavnika) pomoću kog ćemo “prikupiti” odgovore učenika aplikacijom “Plickers”
- računar i projektor

## Zašto “Plickers”?

- Motivacija učenika je poboljšana.
- Odličan je alat za ponavljanje gradiva, evaluaciju ishoda učenja, kratke provjere znanja.
- Ima statistiku učeničkih odgovora, koju je moguće arhivirati.
- Omogućen je izvoz statistike učeničkih odgovora u pdf formatu.
- Dobivaju se rezultati u realnom vremenu, tako da nastavnik može odmah reagovati kod neočekivanih rezultata.

## Šta nam je potrebno da uspješno implementiramo “Plickers”?

- 1) Registracija na portalu Plickers
- 2) Preuzeti “Plickers” kartice (Osnovni set se sastoji od 40 kartica).

Napomena:  
Iste kartice možemo koristiti u više odjeljenja.

The screenshot shows the Plickers website homepage. On the left, there's a sidebar with links like 'About Plickers', 'Classes and Students', 'Plickers Cards' (which is currently selected), 'Cards Overview', 'Get Plickers Cards', 'Cards FAQs and tips', 'Your Class Queue', 'Your Content', 'Sharing Content', 'Now Playing', 'Student Results', 'Your Account', 'Plickers Connectivity', and 'Legal'. The main content area has a heading 'Get Plickers Cards' and a sub-section 'Print Cards' with two sample card designs. There's also a note about free printable cards for teachers and a link to the 'Cards Overview' page.

## Kreirajte odjeljenje "Matematika"

The screenshot shows a web browser window with multiple tabs open. The active tab is titled 'Matematika - Pickers'. The page displays a sidebar on the left with options like 'New Set', 'Discover', 'Your Library', 'Recent', 'Reports', and 'Scoresheet...'. Below this is a section for 'Your Classes Edit' with a list including 'Matematika' (which is highlighted), 'Matematika 2023 ...', and '+ New Class'. Further down are sections for 'Your Packs' and 'Matematika'.

The main content area features a large title 'Matematika'. Below it is a callout box with the text 'Allow students to answer from home' and 'Use for hybrid teaching or 100% remote.' It includes a 'Get Started with E-Learning' button with 'Find out more' and 'Not Now' options, and an illustration of a student at a desk with a computer.

Below the callout is a section titled 'IN PROGRESS' with a progress bar showing '29%'.

At the bottom, there is a footer note: 'Radionica za nastavnike/ce i profesore/ice matematike: Dobre prakse u nastavi matematike' and the date 'Januar 2025, Prirodno-matematički fakultet, Sarajevo'.

# Sada možemo dodati učenike:

The screenshot shows a web browser window for the Plickers website. The URL in the address bar is [plickers.com/classes/678cd219d6045daa7f86dd1a](https://plickers.com/classes/678cd219d6045daa7f86dd1a). The page title is "Matematika 2024/2025 - Plickers". The main content area displays the message "Matematika 2024/2025 is almost ready" in large blue text, followed by "Finish setup by adding your students" and a prominent "Add Students" button. A callout arrow points from the top-left towards this button. To the left, a sidebar lists various navigation options: "Now Playing" (selected), "Search", "Upgrade to Pro", "N Sokolovic", and "Help". Under "Your Classes", the "Matematika 2024..." class is highlighted with a blue circle. Other listed classes include "Matematika" and "Matematika 2023 ...". Below the sidebar, there are sections for "Your Packs" and "New Pack". The bottom of the screen shows the Windows taskbar with various pinned icons and the system tray indicating the date and time as 19.1.2025.

- Row 2:  $+$ ,  $-$ ,  $\times$ ,  $\div$ ,  $\sqrt{ }$ ,  $\sqrt[3]{ }$ ,  $\sqrt[4]{ }$ ,  $\leq$ ,  $\geq$ ,  $\neq$ ,  $\rightarrow$ ,  $\leftarrow$ ,  $\leftrightarrow$ ,  $\sin$ ,  $\cos$ ,  $\tan$ ,  $\circ$
- Row 3:  $\cdot$ ,  $/$ ,  $\pm$ ,  $\sim$ ,  $\approx$ ,  $\approx$ ,  $\Rightarrow$ ,  $\log$ ,  $\log_{ }$ ,  $\ln$ ,  $\angle$
- Row 4: Greek letters ( $\alpha, \beta, \gamma, \delta, \varepsilon, \eta, \theta, \iota, \kappa, \lambda, \mu, \xi, \pi, \rho, \sigma, \omega, \Gamma, \Delta, \Theta, \Lambda, \Pi, \Psi, \Sigma, \Omega$ ), set operators ( $\subset, \supset, \cap, \cup, \emptyset, \in, \therefore, \forall, \exists, \mathbb{N}, \mathbb{R}, \mathbb{Z}$ ), and a button labeled 'Insert Equation'.

On the far left of the interface, there's a sidebar with a preview of the equation  $\frac{2}{3}x^2$  and a 'Learn about' link at the bottom.

## Za ljubitelje LaTeX-a

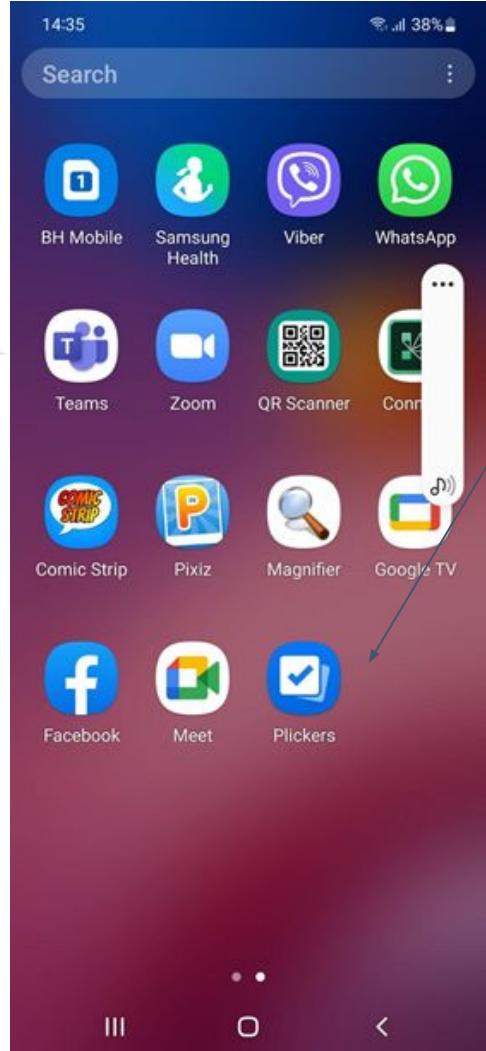

The screenshot shows a LaTeX editor interface. At the top, there are tabs: Standard Equation, Supported LaTeX Functions (which is selected), Chem Extension Functions, Help, and Cancel. Below the tabs is a text input field labeled "Type LaTeX" containing the following code:

```
x = \begin{cases} a &\text{if } b \\ c &\text{if } d \end{cases}
```

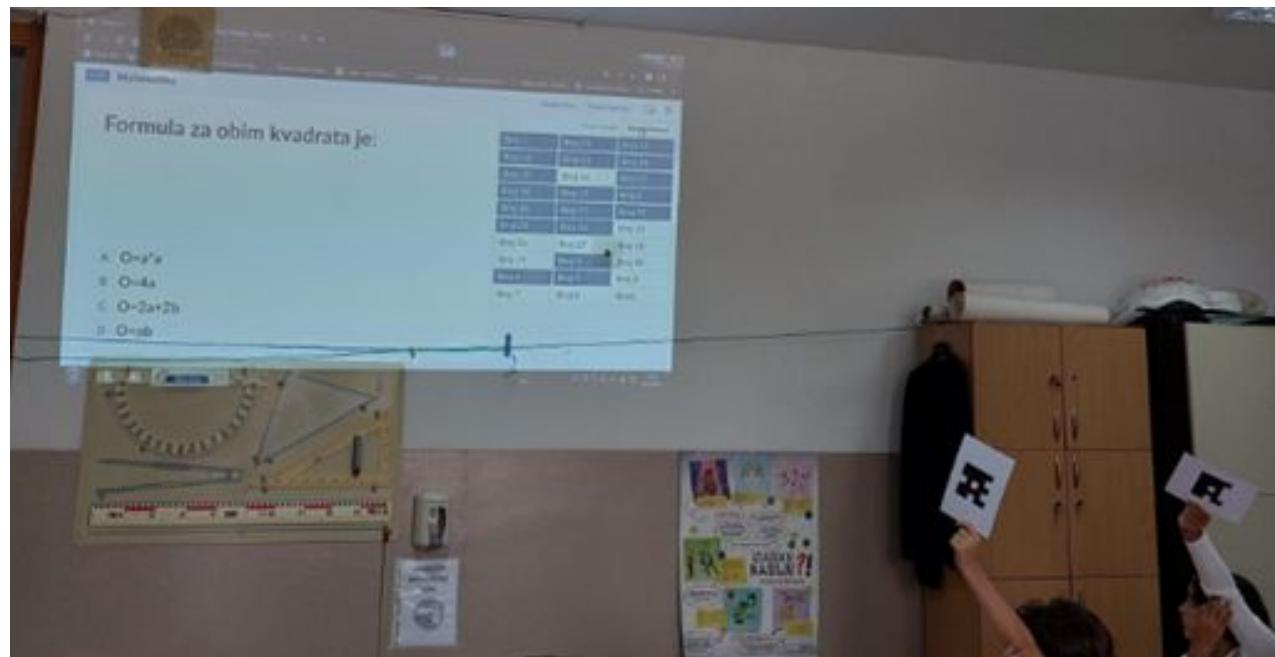

Below the input field is a "PREVIEW" area which is currently empty. At the bottom of the editor is a large button labeled "Insert Advanced Equation". Below this button is a checkbox labeled "Show Advanced Equation button in Editor Toolbar".

## Kviz pokrenemo pomoću mobitela/tableta

Učenici vide pitanje i ponuđene odgovore pomoću računara i projektoru u učionici.

## Kviz pokrenemo i pomoću računara

The screenshot shows a digital library interface with the following elements:

- Top Bar:** Includes "Now Playing" (with a checked checkbox), "Search", and a "New Set" button.
- Left Sidebar:** Lists "New Set", "Discover", "Your Library" (selected), "Recent", "Reports", "Scoresheet...", "Your Classes", "Demo Class", "Matematika", "New Class", and "New Pack".
- Main Area:** Title "Your Library" with a "Filter" input. A "New Pack" button is visible above the list. The list table has columns "NAME" and "MODIFIED".

NAME	MODIFIED
Površina trougla i četverougla	Wed 14 Sep
Unija i presjek skupova	Monday 10:54 PM
Unije i presjek skupova	Wednesday 14:44
- Right Sidebar:** Shows a preview of the selected quiz "Unija i presjek skupova" with the text "Move to Pack → Modified 19/9/202" and a "Play Now" button. Below it, there is a note in green: "Skup svih elemenata pripadaju skupu nazivamo:" followed by mathematical formulas:  $A \cup B$  and  $\cup$ .

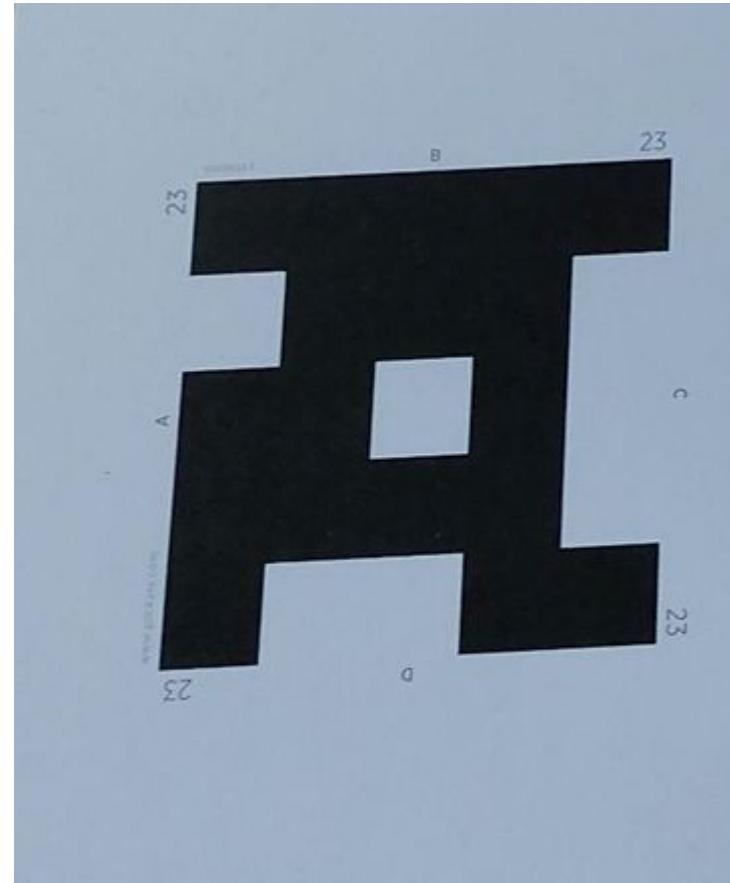

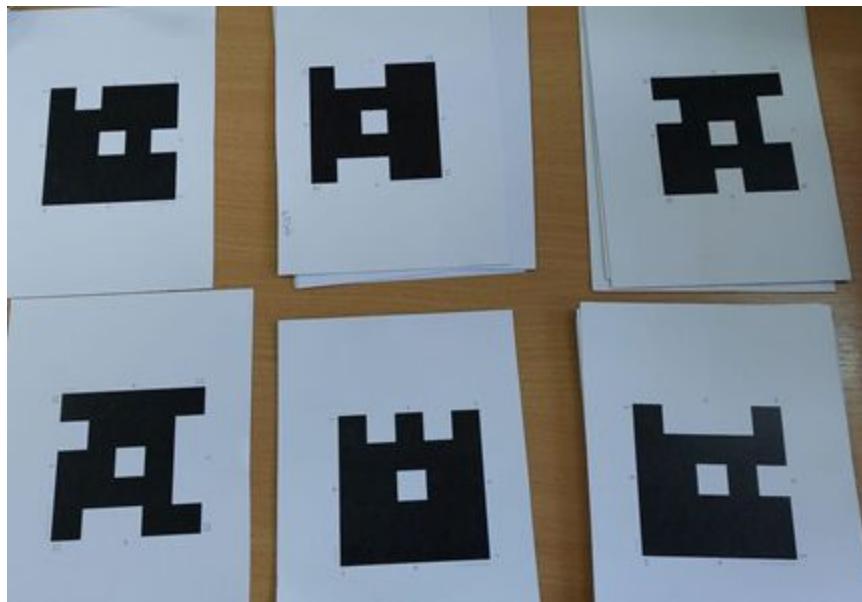

## Kviz pokrenemo i pomoću računara

The screenshot shows a web browser window for the Plickers website ([plckrs.com/library](https://plckrs.com/library)). The title bar includes tabs for Microsoft 365 Apps, Teams and Channels General, Formativno praćenje - nadamini, and Your Library - Plickers. The main interface features a sidebar with options like New Set, Discover, Your Library (which is selected), Recent, Reports, Scoresheet..., Your Classes, Demo Class, Matematika, Matematika 2023 ..., New Class, and New Pack. The central area is titled "Your Library" and displays a list of sets. A modal window is open over the list, titled "Open Now Playing", containing a math problem and four multiple-choice options. The problem asks: "sa zagradama u kojem su zastupljene operacije sabiranje, oduzimanje, množenje i dijeljenje. Koji je redoslijed vršenja računskih operacija ispravan?". The options are: A) Sabiranje i oduzimanje, pa množenje i dijeljenje, i na kraju računamo u zagradama. B) Množenje i dijeljenje, pa sabiranje i oduzimanje i na kraju računamo u zagradama. C) Izračunamo ono što je u zagradi, pa množenje i dijeljenje i na kraju sabiranje i oduzimanje. D) Nije bitan redoslijed računskih operacija.

## Kartice za učenike

- Različite kartice za sve učenike u odjeljenju.
- Nakon što učenici pročitaju pitanje i razmisle, odaberu tačan odgovor (na primjer: ako je tačno “pod B”, karticu, na kojoj piše “B”, okrenu, tako da je “B” na vrhu kartice.

Sljedeće pitanje odaberemo pomoću mobitela.

Nakon što kliknete na “crveni krug” da skenirate odgovore pomoću kartica odaberite “Only this time”.

Kada skenirate odgovor  
učenika, klinite na  
“crveni kvadratić”.

Sljedeće  
pitanje  
odaberemo  
pomoću:+

Nastavnik/ica pomoću mobitela odmah vidi da li su učenici dali tačan odgovor (ukoliko je kružić obojen zelenom bojom, odgovor je tačan, a ako je krug obojen crvenom bojom, odgovor nije tačan).

# Pomoću računara odaberite set pitanja

Screenshot of the Plackers library interface showing a list of math sets and a detailed view of one set.

The left sidebar shows navigation options: New Set, Discover, Your Library (selected), Recent, Reports, Scoresheet..., Your Classes, Matematika, Matematika 2023 ..., Matematika 2024/..., New Class, Your Packs, Matematika, and New Pack.

The main area displays "Your Library" with a list of sets:

## Pomoću projektora vidimo:

Pomoću projektora vidimo brojeve kartica učenika, čiji su odgovori skenirani.

## Zadatak:

Pomoću mobitela i računara pokrenite set pitanja, koji ste napravili na ovoj radionici. Ulogu učenika imaju vaše kolegice i kolege, koji sjede u vašem redu.

# Tehnike za formativno praćenje

## Signali rukom

“Šaka pet” je tehniku, koja nam daje povratnu informaciju i praćenje i koja se koristi za provjeru razumijevanja ili vještine u bilo kojem trenutku časa.

Posebno je korisno kada objašnjavamo novu lekciju, uvodimo novi postupak ili dajemo upute za rješavanje zadatka.

Ova tehniku omogućuje nastavnicima usmjeravanje izazova i tempa nastave prema potrebama učenika. “Šaka pet” daje nastavnicima povratne informacije trebaju li modificirati lekciju ili podijeliti učenike u parove, kako bi pomogli jedni drugima.

Tražimo od učenika da označe stepen svog razumijevanja koncepta ili postupka:

- držanjem stisnute šake (bez razumijevanja),
- jedan prst (vrlo malo razumijevanja),
- dva prsta (razumiju malo, ali im je potrebna pomoć)
- tri prsta (razumiju većinu toga, ali nisu sigurni da to mogu dovoljno dobro objasniti drugima)
- četiri prsta (razumiju to prilično dobro i mogu obaviti adekvatan posao objašnjavajući to)
- pet prstiju (razumiju u potpunosti i mogu to lako objasniti nekom drugom i primijeniti u težim zadacima).

Na primjer, nakon davanja uputa za aktivnost, nastavnici mogu tražiti da učenici pokažu "šaku pet", kako bi brzo provjerili razumiju li učenici upute prije nego što nastave s aktivnostima.

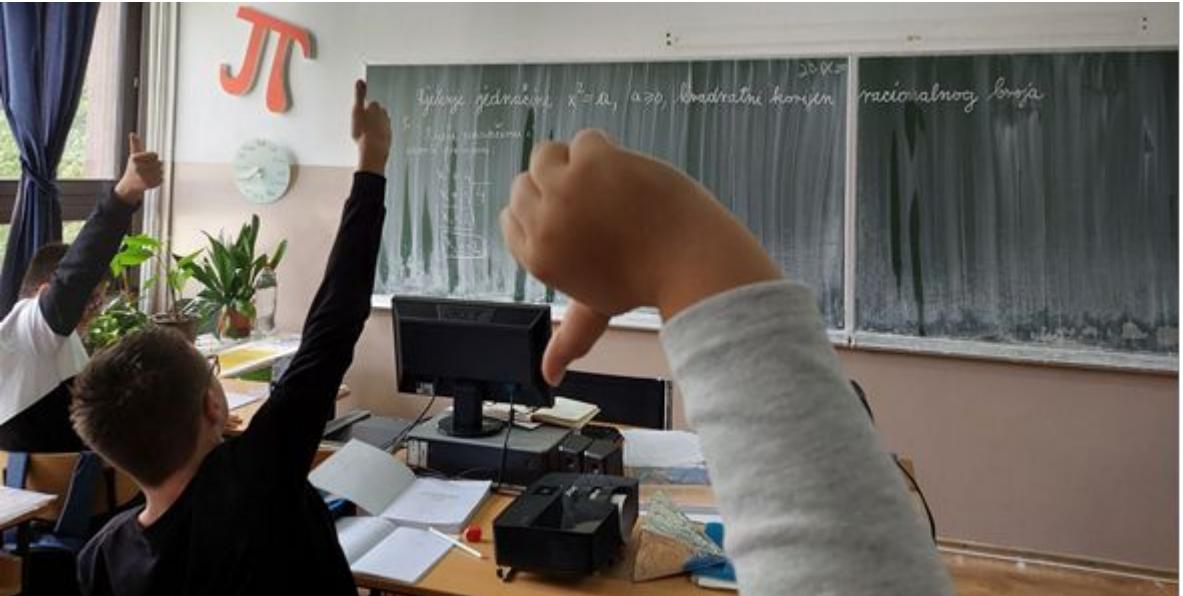

Ova tehnika se može koristiti za grupisanje učenika radi vršnjačke pomoći, stavljanjem učenika koji drže dva do tri prsta zajedno sa učenicima, koji drže četiri ili pet prstiju.

Nastavnik tada može uzeti učenike, koji su pokazali zatvorenu šaku i jedan prst na stranu za diferenciranu pomoć.

## Ova tehnika se može modificirati kao strategija sa tri prsta:

- palac podignut gore (shvatam),
- palac u stranu (nisam siguran)
- palac dolje (ne shvatam).

## Zeleni i crveni CD

Primjer:

Na tabli napisati formula, zadatak ili tvrdnju. Učenici trebaju pročitati formulu i ako je formula tačno zapisana, odabrat i pokazati zeleni CD, a ako je pogrešno zapisana, odabrat crveni CD.

## Metoda tačno-netačno

# METODA TAČNO-NETAČNO

The infographic illustrates the Precise-Inaccurate method (Metoda tačno-netačno) for teaching mathematics. It features four colored boxes: a dark grey box labeled "TVRDNJA" containing three mathematical identities, a red box labeled "TAČNO", an orange box labeled "NETAČNO", and a light blue box labeled "OBJASNI ZAŠTO".

**TVRDNJA**

$$x^2 + y^2 = (x+y)(x+y)$$
$$x^2 - y^2 = (x-y)(x+y)$$
$$(a+b)^2 = a^2 - 2ab + b^2$$
$$(a-b)^2 = a^2 - 2ab + b^2$$

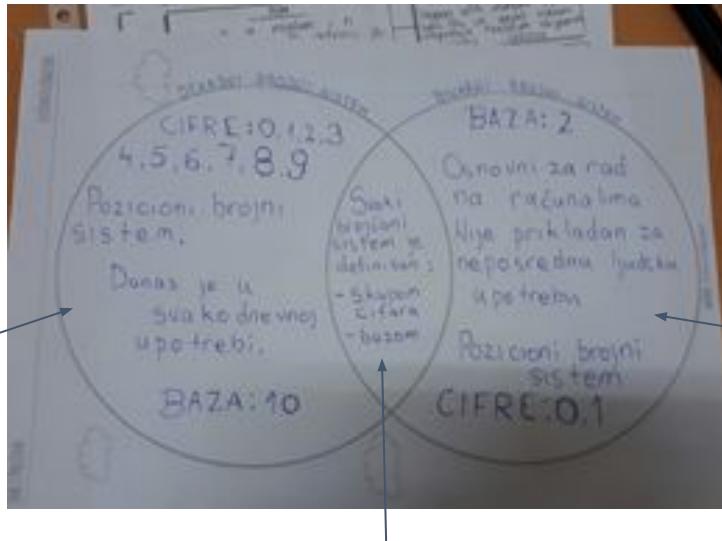

**TAČNO**

**NETAČNO**

**OBJASNI ZAŠTO**

## Primjer upotrebe Venovog dijagrama

Šta je karakteristično za dekadni brojni sistem, a nije za binarni brojni sistem?

Šta je zajedničko za binarni i dekadni brojni sistem?

Šta je karakteristično za binarni brojni sistem, a nije za dekadni brojni sistem? \*

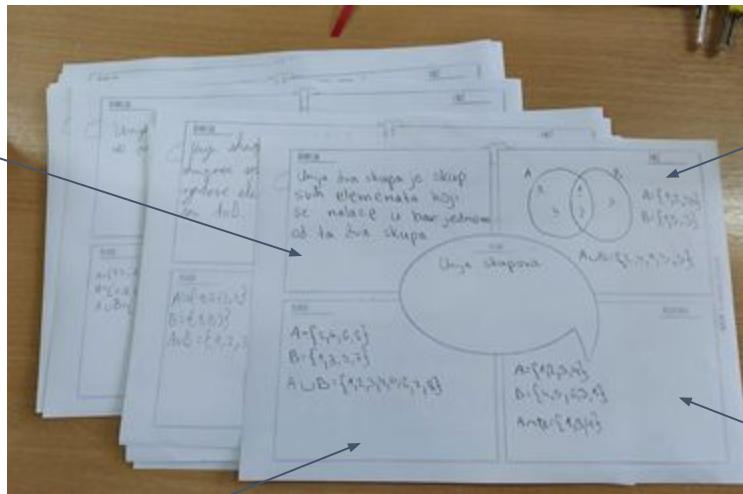

## Uspoređivanje pojmova

Pojam:	Dekadni brojni sistem	Binarni brojni sistem
Baza	10	2
Cifre	0,1,2,3,4,5,6,7,8,9	0,1
Upotreba	...	...

## Primjena Frayer-ovog modela

Napisati definiciju

Nacrtati

Napisati primjer unije skupova

Šta nije primjer unije skupova?

## Dvije zvjezdice i želja

Primjer:

Učenik je napravio prezentaciju o sigurnosti na Internetu.

Zadatak za učenike je da napišu pored zvjezdica šta je bilo dobro u prezentaciji.

Kako bi mogao poboljšati prezentaciju?

- Kako nastavnici mogu implementirati Plickers na času matematike?
- Dijeljenje iskustava među učesnicima o mogućim načinima primjene formativnog praćenja u matematici.
- Koji su izazovi, prednosti i preporuke za upotrebu ovog alata?
